IT'S NOT NOT GIVING EVERYTHING!

There's something new happening in barcelona. Four different freaky characters has joined together to form a band where the dirtiest punk rock meet dance music, leaving enough space to experimental and crazy music to sound completely unique. Some of the members from It's Not Not also play in bands like Standstill or Tokyo Sex Destruction, but it would be wrong trying to find the It's Not Not sound in any of these bands. Their debut CD offers us 11 catchy songs, full of melodies and chorus to sing and smile at the same time. A solid rythm section full of feeling, groovy guitars influenced on equal parts by punk and funk, and enough room to experiment giving the record a peculiar and personal sound to every song. The intensity, fun and hedonism of their debut CD on Bcore will leave more than one mouth opened. Punk, nocturnity and

hedonism into a band that gives everything. Join the hamstermania!
