

Madee

We should take our chances

Sometimes, and specially when it has been so active during a short period of time, a band needs to stop and take a look back to see the work done. In the case of Madee, three records in three years ("Songs from Cydonia" (02), "Secret chamber" (03) and "Orion's Belt" (04)), means a lot of songwriting, of performing and, with special emphasis, video shooting. That's why the band has decided to put together all of their videos and some remarkable performances in one DVD that resumes the band's history in the last years, showing some of their best moments live and behind the cameras. The concert played at Barcelona's L'Espai with a string quartet introducing their last studio album, or the gig for the spanish television are good examples of the band's delicate and precise sound, and show their wonderful atmospheres as clear as on their studio recordings, with Ramon's velvet vocals over the top and the infinite guitar and keyboard layers wrapping some of the most beautiful songs written by Barcelona area bands in the last years. Also, such diverse videos as "Economy" with its animations, the dances in "Fallen heroes", the love story in "Impulsor" or the surrealistic trip in "Secret chamber" make of this DVD a true must for all Madee lovers and a really interesting open to enter the wonderful band's world.

Video:

- 1.Fallen Heroes
- 2.Alive
- 3.Economy
- 4.Arcana Arcanorum
- 5.Hiddeb
- 6.Betlegeuse
