7. Solitaire
8. Still Makes No Sense

Selling Points:

- Members of The Attack Of The Brain Eaters, Wild Animals or Ulises Lima.

- You'll like Weak if you like NoFX, Satanic Surfers or Lagwagon

Weak is the new surprise fresh out of Madrid's sewers, four riders of the Apocalypses rescuing the echo of a genre they refuse to let die. "The Wheel" is their debut album and it meets the standards expected from a punk rock band: speed, melody and social criticism. The ingredients are many more though, so various and yet so simple, words are too much and time is too short, so we'll keep it concise.

Fanqui, Mérida, Fon and Tote are like cartoon characters with quite a few things to say, but the fascination grows knowing that behind these names are solid careers with other bands like The Attack of the Brain Eaters, Wild Animals or Ulises Lima, and that this time they have joint energies in a project that has little or nothing to do with the idea you could have of people that come from such different projects (specially when choosing labels and styles of their own).

"The Wheel" doesn't always rotate on the same axis, obviating the repetition that comes with the abuse of easy chorus lines. Sweet melodies combine with bittersweet lyrics while salty guitars blend with a furiously bitter rhythmic section. Different textures and flavors that make this wheel a fantastic meal that's easy to digest with a walk through the mountains or on the beach, searching for warmth in the winter or cooling off that summer heat.

Weaks' first eight tracks are made for an audience that just pass their thirties and has grown with references such as NoFX, Satanic Surfers or Lagwagon, but it's also for new generations that are just discovering the characteristic Swedish and Californian sound.

Even though the album is dressed from head to toe with a nineties sound that transports you inevitably to an era of acne and chocolate sandwiches, their songs are full of realities that are so adult-like it's almost scary to contemplate how easy it is to see your face reflected in mirror they draw.
